## EDUCATION

D Y Patil International University

BTech-CSE - CGPA - 8.17

2021 – present

Pune, India

## TECHNICAL SKILLS

**Languages:** TypeScript, Python, C++, JavaScript, MySQL, PostgreSQL, Rust, Go

**Developer Tools:** Neovim, Docker, GitHub, Git, AWS(S3), VSCode, Linux, Vercel, NPM

**Technologies/Frameworks:** Tailwind, NextJs, ReactJS, Redux, NodeJS, ExpressJS, Gin, QTC++

**Course Work:** DSA, Operating System, Computer Network, DBMS

## EXPERIENCE

Elite Bridge (SDE Intern) [🔗](#)

06 2023 – 07 2023

*SDE Intern*

Pune, India

- Collaborated with the team of developers to **research, develop, and document** an Administration System for **Windows**
- **Implemented** features like job, task, item assignment, and **administration control**
- Used **design pattern** like **singleton** for a **single point of access** throughout the application for **access control**.
- Wrote complex queries that allowed the admin to assign roles, tasks, and items to a group of employees
- Tech Stack:- C++, QT, MySQL

## OPEN-SOURCE CONTRIBUTIONS

**Repositories Contributed to:** Form Bricks (9.1k) stars on github) version 2.7.1 [🔗](#) |

**Feature:** Implemented a feature that allowed the user to randomize form categories for multiple choice and ranking questions to reduce bias.[MERGED]

**Feature:** Implemented a feature that allows the user to copy formbricks survey actions between different environments. Improving the user experience and allowing them to use formbricks efficiently[MERGED]

## PROJECTS

**Task-It** [🔗](#) | NextJs, TypeScript, TailwindCSS, Tailwind, PostgreSQL, NextAuth

2023

- **Designed** and **developed** a dynamic Kanban board to streamline task management.
- **Implemented** drag-and-drop functionality to **optimize** task organization and workflow efficiency.
- **Built** an intuitive, user-friendly interface leveraging modern web technologies to **enhance** user experience.
- **Integrated** robust user authentication and **secured** data storage, ensuring both privacy and data integrity.

**ChatMates(Chat app)** [🔗](#) | NextJs, TypeScript, WebSockets

2023

- **Developed** a robust platform enabling users to **create** and **moderate** channels for seamless communication.
- **Implemented** real-time text, video, and audio chat functionality, **enhancing** user engagement.
- **Designed** and **integrated** advanced admin control and moderation tools to **ensure** a secure and safe community environment
- **Engineered** a fallback pooling architecture that **prevented** data loss during chat disruptions, **reinforcing** a smooth, uninterrupted user experience.
- [Live Link](#)

**CogniShell** [🔗](#) | Go, TypeScript

2024

- **Developed** a lightweight CLI tool using Go and the Cobra framework, enabling developers to **seamlessly** access LLM models like Gemini from the terminal.
- **Optimized** for enhanced developer experience, **boosting** productivity by providing quick, efficient access to language models.
- **Improved** personal productivity by integrating LLM capabilities directly into the command line workflow.
- **Tech Stack**-Go, Cobra, NextJs, Tailwind.
